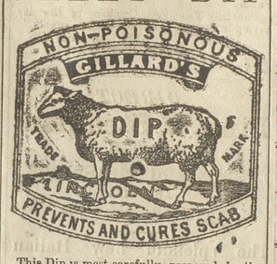
GILLARD'S SHEEP DIP



This Dip is most carefully prepared by the latest improved methods and can be used with
COLD WATER
Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MARIOS, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that dip keep scab out of the flock."
From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fullly determined for the future to use no other remedy."

HAVAS' AGENCY

Paris, 9th

Official telegrams from Tunis yesterday report that the Bey's army and a corps of French troops completely routed the insurgents at Aïn-Turka, after a serious fight. Loss of insurgent not known, but they are heavy.

SUNDAY CLOSING.

Due to the opposition of a few shopkeepers who have applied to the Nat. Government to have the Sunday Municipal Decree rescinded, it was thought by the emancipated clerks and shopboys that a public demonstration of gratitude to the Municipality would show the people and the Government the great popularity of the 'ordenanza' in dispute.
Notices in all the papers were published of the meeting to be held on Sunday by the liberated employees at the Plaza Lorea, and there was indeed such a gathering up there that the police, evidently on the 'qui vive', turned out stronger than ever; horse and foot police were met at every point; the young men assembled spoke amongst themselves very bitterly of the iron tyranny of society that refused them even rest on Sunday. Beneath the shadow of the high water tank the clerks stood, and every minute the numbers increased. There was a flat brass band, then followed the English, American and Brazilian flags borne by youngsters whose beaming countenances plainly told their delight at getting Sunday for a holiday. The Plaza Lorea is a shoppy locality, and from behind the closed shutters of the shut shops the indignant patrones caught a glimpse of what was going on. We heard of one almacenero who locked his three clerks in the shop all day, turned the key, and went to the Palermo Exhibition.
At 2 o'clock the procession formed and away they went down the shut up Calle Victoria, windows and azoteas crowded with pretty women who sympathized with the boys and cheered them as they trudged along in their Sunday clothes to that goal of public rights the Plaza Victoria. If the animosity of the dealers and shopkeepers to this Municipal decree has been hitherto great, how the sight of all these employees tearing down the street, firing off rockets, waving banners and playing gay music intensified it; their animosity against the Municipality extended to the whole country, and at many points was sufficiently audible on the side walk, but the 'boys' kept marching on, and when the head of the column reached the Plaza there was hardly room for it to enter, such was the jam before the Cabildo.
Whilst all this was going on in the street the Lord Mayor, with some half dozen of Municipales, upstairs, inside, was in waiting in the grand saloon. Colonel Gramajo, on the part of President Roca, entered to salute Mr. Alvear. The Colonel is one of the greatest Sunday men in town, and assured the Lord Mayor that it was a mistake to allow the confiterias open. The windows of the Municipality were now thrown open; the band halted, and a hatless crowd of from 4000 to 5000 employees called for the Mayor on the balcony. The day was not fine; it was blowing all the morning a stiff Falkland Island breeze, and although not to say cold, it was just the weather to get sore throat, neuralgia, toothache and other ills to which even the most rigorous Sunday observers are heirs. Mr Alvear took his place, and around him on the balcony stood uncovered his colleagues. Cheer followed cheer. Now they played 'Old Mortales,' then 'Hail Columbia,' and then 'God save the Queen.' Some fifty tram cars were jammed up, transit stopped, and many of the mayorales mingled in the crowd and cheered lustily, wishing evidently that tramways were placed in the same category as barbers' shops. We caught a sight of Mr. Tom Shiel, the great English confitero; he was enveloped in Scotchmen, who to a man are Sunday observers, just the same here as in Glasgow—no liquor on Sunday.
At last we were all rescued from this neuralgic dilemma by the Syndicate or Committee splitting from the column and making for upstairs with a large book, the size of Roca's map of the frontier. Two Municipales stood at the head of the marble staircase to receive them. The Committee arrived. Never have we seen a score of better dressed and more respectable looking young men. The spokesman seemed hardly to count 25 summers, yet he delivered an address to Mr. Alvear that even Dan O'Connell could not beat, and read from the costly album the address illumined by the hopes and aspirations of thousands of young men who are so hard worked that they have not time to say their prayers.
Mr. Alvear, with the dignity of a true Hidalgo, received the young men and their album, and in calm, dignified, but some stirring words, replied to the address and told the young men that the Municipality was with them; that Heaven itself was with them, and that the respite which honest industry needed would be guaranteed to the employees by the Municipality of Buenos Ayres. Bowed out and bowed down, the Committee retired; the excitement was intense; the cheering in the Municipality was caught up by the crowd in the Plaza; the band played, and 5000 voices called for Alvear to the balcony. A difficulty arose with the Chief of Police, who refused to allow the procession to March to the Retiro. "Sunday must be observed," said the Chief, and we have all had enough of this now, but hope, like the bird in the story, flitted on the heads of the crowd. "To the Retiro," was the cry, and five minutes private conversation inside arranged everything. After a nervous pause, the Comisario mounted his steed; six cavalry policemen followed; and away they all marched, up Rivadavia and down Florida, over the very paving stones that a few years ago the 'patrones' marched, with Hector Varela at their head, to protest against the tax on wines and cigars; but neither the 'patrones' or Hector are any longer to the fore, and the public, perhaps, loses nothing in the change, for a more orderly and respectable demonstration than that of Sunday we never before witnessed in town.

THE CHILIAN QUESTION.

The following is the note addressed to the Chilian Generalissimo in Peru by the United States Minister at Lima, on the necessity for bringing the Ten Cents War to a speedy close. We add to it a translation of an article in the Chilian paper *Independiente*, on the Boundary Question between Chile and this country:—
Mr. Admiral, desirous to avoid all misunderstandings as to the conversation I had with you yesterday on the state of affairs between Peru and Chile, I deem it right to put the same in writing. Memorandum—Without referring to the cause of the war, I understand it to be the opinion of my Government that all its legitimate ends have been already attained by the disastrous defeat of the Peruvian army, the capture and destruction of their ships, the occupation of their capital and all their littoral. When all organized means of resistance have disappeared, the state of war should also cease. The triumph of Chile is complete; peace is necessary to the National existence of Peru, and it is the interest of both countries that it be arranged as speedily as possible; commerce and the rights of neutral parties have already suffered enough, and the great interest possessed in Peru by foreigners (many of whom are Americans) ought not to remain any longer exposed to the dangers of an unnecessary prolongation of the war: these are self-evident facts. In view of these reasons, and of the friendly feelings of the United States towards both parties, it is our opinion that peace is one of the first duties of both Governments.
I also wish to state that, whilst the United States recognises all the rights acquired by the conqueror in accordance with the laws of civilised warfare, it disapproves of war that has for its object territorial aggrandisement and the violent disintegration of a country, excepting as a last resource in extreme emergencies. As no limits questions have ever existed between Peru and Chile, and there being, therefore, no frontier to define, and inasmuch as Chile has repeatedly, publicly and officially repudiated any intention of forcible annexation of territory, we are clearly of opinion that such a proceeding now would be incompatible with the dignity and public faith of Chile, and that it would be fatal to the future tranquility of both countries to sanction a great grievance that would tend to occasion constant disorders.
The United States admit, as a point of law, in accordance with the code of war, a full indemnity for the expenses of the same, and that Peru must pay it in whatever form may be agreed upon by both parties and the fiat of a neutral arbitrer in the event of a disagreement, should such a measure be selected, and, finally, that Chile has the right to exact security if any definite term be mentioned for the payment.
But we are also frankly of opinion that Peru must be given an opportunity, after full discussion of the terms, to offer an indemnity in a satisfactory shape, and that it is contrary to the rules which should prevail among enlightened peoples to proceed from the first, and as a necessary condition annex essentially Peruvian territories to the jurisdiction of Chile, previous to their being inability or unwillingness displayed by Peru to pay the indemnity under some other form. Such conduct, on the part of Chile, would be decidedly disaproved by the United States. I wish it to be distinctly understood that Chile has gained military renown and that she can afford to treat not only justly but liberally. Peru has lost her liberal reputation and is unable to bear many further humiliations. It is never prudent to drive a conquered people to despair. Chile has gained a high place among nations through the benefits of a well-established Government, the faithful observance of the laws, the labour and industry of her sons; in a word, through peace. To all this she has added during the late war splendid triumphs on land and sea.
The United States would be sincerely sorry to see her depart from such a line of conduct for a career of conquest, because the warlike and aggressive spirit would hinder her true progress; it would excite dangerous rivalries and would arm many elements against her. We are therefore of opinion that the act of annexing Peruvian territory to Chile, whether it be done through simple force, or as the result of a measure dictated as an imperative condition, in open contradiction to the professions of Chile in this respect, would be justly regarded by other nations as an evidence of the fact that Chile had entered upon the pathway of aggression and conquest and territorial aggrandisement.
The United States desire, above all things, that peace prevail among the South American Republics, and that commerce and industry may serve as the means for the development of their great resources, for their own benefit and that of the world at large; and we fail to see any good reason for the state of war to last any longer, to the serious detriment of such valuable interests, or any reason why a just peace be not shortly made without any unnecessary humiliations for the one side, and entirely to the satisfaction of all the legitimate claims of the other.

"In the question of Patagonia, rights of Chile and the Arg. Republic being clear and defined, and, almost equal, a solution is easy, nor is it for this reason lees equitable, if the Argentine Republic will but recognise the true fact of the case, viz., that the only territory about which there can be any question is that lying between the Rio Negro and the Straits.
"The Encyclopedia Britannica of 1850 is borne out by many of the most distinguished geographers when it lays down that Patagonia is

a separate territory, without nationality, bounded by Chile and the Argentine Republic, without any political relation with either, except the claim one has to its Western side and the other to its Eastern: so that it being proved that Chile is the sole owner of the austral territories, the question is confined to Patagonia, and the only thing to be decided is an equitable division of the territory in accordance with the same rights as those of the United States in the Oregon Question.

"I lay it down as a fact which I will prove conclusively later on that the austral territories belong undeniably to Chile, they being in her actual possession, included between the Continent, Cape Horn and the Straits, which are all, territories and waters, under Chilian dominion. I shall also prove, at the proper time, that Patagonia from Rio Negro to the Straits, should be divided equally between Chile and the Argentine Republic by a line running more or less along the parallel 45° 41 SL, on the same principle as that recognised by the U. States and Great Britain in the case I have referred to.!'

EDITOR'S TABLE.

The Closing movement made further progress on Sunday, and people who saw no use in kicking against the pricks did the wise thing and went out to amuse themselves. Early in the day Police Commissaries patrolled all the streets and spoke in a parental manner to the few, very few, who tried to dodge the law by keeping their doors ajar and standing at them, as if to enjoy the air, but in reality to intimate to customers that they were 'at home'. We saw a few disciples of St Crispin at this manoeuvre, with their blue aprons on, and a barber who lounged gracefully at his door, paring his nails with a razor. It was no go: the Commissaries were inexorable: but in most cases the fines were not imposed, on promise to obey the law without any nonsense next Sunday. The shopkeepers' assistants held their meeting in Plaza Lorea, with flags, bands, and the usual paraphernalia, and then marched to the Municipality and presented the Lord Mayor with a beautiful album, with several hundred signatures, thanking him and the members of the Municipality for the Sunday closing edict. The demonstration was highly creditable in every respect to those who made it. After presenting the album to Mr Alvear, the young men marched to the Retiro and then dispersed. The weight of Public Opinion is entirely in favour of the Sunday Closing movement, and we venture to say that, before another fortnight is about, the few who now oppose it will be amongst its warmest supporters and glad enough to have a day's rest in the week.

The *Globo* of Rio publishes a telegram saying that things look very bad in Ireland: riots everywhere and more troops being sent from England.

La Perichole, at Colon, on Sunday last was rendered with an originality that, had we not been familiar with the charming music, would have left the impression of a 'premiere'. This appears high eulogium, remembering we have had two very excellent impersonations of the leading role in Rose Marie, and later with Stani. But the Paola carries all before her. We do not think there is another stage trick left unseen after admiring her Perichole, and although we regretted to note she was suffering from a cough and cold, she appeared to triumph over both, and gave us a warm life-like Perichole, new even to the most antiquated stagers. The acting by the three comedians in 'Les femmes, les femmes il n'y a que ca,' is not to be excelled; they convulsed the audience, who thrice redemanded this agreeably naughty trio. Paola Marie's 'Je suis grise' is clever and free from coarseness, which is indeed one of the many good qualities of the troupe—a difficulty of some delicacy in operabouffe, and not overlooked by the audience. Mons. Mauge will shortly give his benefit in La Traviata, and 'habitues' may look forward to an event.

Yesterday was again 'soft': mud below, rain above, and the gloom of the Chilian Question affecting everybody. The rain telegrams from the camp report more cloud than 'agua', but it is time for a clear up. There has been too much of that good thing—rain.

We hear from the South that the Camp Police organized by Mr Dantas are doing their duty well and have cleared out all the 'boleadores' and other vagabonds from inside the Alsina Ditch, but they swarm outside worse than ever. We learn, however, that the War Minister sent peremptory orders last week to all the Gefes de Frontera down there to 'concluir', once and for ever, with all the Indians, 'gauchos malos', deserters, &c, and it is to be hoped the order will be implicitly obeyed this time. The estancieros will be grateful to Minister Victorica.

The Rural Society's Exhibition was closed on Sunday. The weather looked so dubious that there were very few people present. Governor Roach was present and made an eloquent speech previous to distributing the prizes. Many winners did not answer to their names. The several military bands present helped to enliven the scene a little, but the weather spoiled the 'fiesta'. One of the ostriches created a sensation by giving its keeper a kick that left him in a state of 'coma' for an hour.

We perceive that Messrs F Macciras & Co. have applied to the Nat Government for leave to start a salt-cod establishment at San Blas. There is nothing better than a cod's head and shoulders properly cooked. Messrs M. have, however, applied at the wrong shop.

We extract the following from the London *Globe*. We believe it is the only case on record of a Caledonian having been taken in:—It is held to be difficult to do a Scotchman; but a Scotchman who writes to the *Times* this morning confesses to having been 'done.' Going home from church last Sunday morning he saw a man eagerly seize a piece of bread lying in the gutter, and begin to devour it. Overflowing with compassion, he hastened up to the poor fellow and gave him some money. No sooner, however, had he yielded to the prompting of charity than the 'canny' element of his Scotch nature re-asserted itself. How came the piece of bread to be lying in the gutter just in the nick of time? He followed the object of his compassion, and saw him play the same game half a mile further on; whether with equal success he does not may.'

The *Razon* of Tucuman says that boiled water is now the favourite tipple in the Interior, as it is found to be an effective preventive of 'chucho.' There is little or no general news of interest from the Interior.

We hear that the Bachelors of Rosario are about to give another ball at the Olympic Theatre there.

Our colleague *La Tribuna Nacional* whom we take sincere pleasure in saluting on its first anniversary, wishing it long life and prosperity, agrees with our views as to the Press Association, pithily remarking that it would prove a Kilkenny-cat affair, and that, after the first meeting, there would be nothing left of any of the editors present but the tails. We presume our colleague means their coat-tails and does not intend any veiled allusion to Darwin's theory.

A subscriber who has arrived from Corrientes tells us that everything looks well and flourishing up there now. Governor Gallinos is devoting all his energy to a thorough reform of the finances of the province, and security for life and property. H.E. lately sent out a body of 200 men, under Mr Casco, Gefe Politico of Monte Caseros, to clear out all the 'matreros.' The camps are in the most splendid condition.

There was very heavy rain in Santa Fe last week and the farmers are uneasy lest it may produce smut in the wheat, which otherwise gives magnificent promise.

The prize of 16,000 patacons in the Sta. Fe Lattery fell to a little boy who sells tickets in the streets. The party who usually bought the number from him (8307) refused it, as he came late: he offered it to several others; they refused; he offered it back to the Agency, forfeiting his commission, but was again refused, and he went home crying, deeming the price of the ticket a dead loss. That industrious little boy is now in a position to retire from business and drive his carriage. More luck to him!

Colonel Latorre arrived in town on Saturday night and was at Colon on Sunday night, incog, so well disguised that even his nearest and dearest would not know him. Some say he has no intention of "regenerating poor Banda Oriental at present.

The Revd, Gybbon Spilbury will, with the consent of the Most Revd. Dr Stirling, Bishop of the Falklands, open his School at Flores—No. 29 Calle Rivadavia—on Monday. November 2nd.

All the imprisoned editors were released on Saturday. We salute them and welcome them back to the 'Bus.' They all called on General Osborne yesterday, to thank him for interfering in their behalf.

The Guillaume Circus troupe debuts to-morrow night at the Politeama. All the artists and performances are new to this city. In Rio they created 'un entusiasmo delirante,' so what will they produce in this land of enthusiasm?

Our highly talented colleague Dr Gutierrez, of the *Patria Argentina*, has now got to London in the course of his European tour; he seems to have a holy horror of the British pick-pocket. We again commend his graphic letters to the public.

The famous case of Fernandez *versus* Lafone, at Montevideo, has terminated in judgment for the latter. The trifle of 400,000 pats was involved.

There was a queer affair in the river the other night. The Montevidean Government shipped a lot of lances and Remington cartridges to some river port, on board one of the usual steamers, but some patriots who took passage in her for the purpose, pitched them all overboard during the night. Such are River Plate politics.

We are glad to report that Dn Emilio Castro is progressing favourably, but the doctors forbid him to speak and say it will take fully three months to complete his cure.

Mr Petty has received by the Neva for his own use, six of the finest Durham cows that have ever arrived in this country—beauties in every respect. By the Elbe he will receive three more cows and a bull of the same breed. The importation of blood stock is daily assuming larger dimensions. The "criollo" 'bos will soon be improved off the face of the River Plate.

A telegram to the *Nacional* says that a light-ship was safely anchored at Bahia Blanca on the 5th. It is the first light-ship on the South Coast.

The National Pantelephone Society have obtained a ten-years-privilege from the Santa Fe Government, and propose to put a girdle of telephones round the camp in half forty minutes. It will be a grand thing for estancieros who reside in town to be able to have a chat with their mayor-domos at a moment's notice.

From the Special Notice in another column respecting Lloyds Agency our readers will note that during Mr Engel's absence, he will be represented by Mr Philip Dorman, under whose charge the practical working of said agency has been for many years past.

Patacons	25.50
Cedulas A	99$\frac{3}{4}$
National Bank Shares	118

The market opened for the week with everything down; gold, Cedulas, Bank Shares and National Bonds, everything gave way save paper money, which is most significant, and paper lifts its head on the shoulders of the Government broker, who sold over $f.1$co,ooo. The gold market presents, in the opinion of many, a most artificial appearance, and what between the Provincial Bank drawing and replacing specie notes with its new currency sold sight checks, and the National Government selling almost daily, the price of gold is kept down, but there are other influences at work on the market which may dispute the empire of our money market.

The amortization of National Bonds to-day was a surprise to the whole market, first, for the large amount of Bonds offered, and secondly, the price at which the amortization took place, being close on 10 o/o under the amortization 3 months ago. The following were the bids:—

National Bonds, 1876—

700	$f.$ 94	B Dameril
1,000	96.89	Fratje
1,700	93.97	do
1,600	93	H Hart
500	94	Rymer O Watson
500	92	E Bedoya

National Bonds, 1863—

5,000	96.95	Krutish
11,000	98 95	do
10,100	93 97	Villar
18,000	91.89	Pratje
10,000	92.89	do
10,000	93.39	do
5,000	91 90	do
16,500	92.45	do
18,000	91	R Lawson
10,000	93	do
5,000	95	J Langan
5,000	95$\frac{1}{2}$	do
10,000	96	do
2,200	95	Gomez
400	97$\frac{1}{2}$	Dameril
25,000	98	F Pico
12,000	93	R Ramsay
10,000	91	Halnes
2,100	94.45	Mulhall
10,000	93.90	Picasso
3,000	92 75	Avalia
3,000	94.50	do
15,000	89.95	Casenave
3,800	99$\frac{1}{2}$	Bilbao
6,500	94.99	Jackson
11,500	91	Hart

The bids accepted were those of Mr Casenave at 89.95, and Mr Hart and Mr Lawson at 91. Last July no one in this market would have believed that the next amortization would be at such low rates, but we note that all stocks in this market are at present giving way.

Gold opened cash at 25.55 and closed at 25.50; cash sales, 70,000 pats. For end of the month very heavy sales, 441,000 pats at 25.55, and for long dates same rate. We heard of a sale of 20,000 pats for next February at 25.55.

Cedulas ruled weak; 14.000 cash sold, opening at 99$\frac{3}{4}$, tumbling to 99, and closing at 99$\frac{5}{8}$. Sales for next month at 99$\frac{3}{4}$, and for December at 99.

National Bank Shares betray similar depression, opening cash at 119 and closing at 118; for end of month at 120, closing at 119. Who is buying the stock now is the question; we asked an Italian and he answered 'non capisco'. The total sales of day only amounted to 3,761 shares.

Another great sale of land it is our pleasure to report; the 14 leagues in Lincoln, which Messrs Bullrich & Co. advertised for auction on 14th, were sold by private sale to-day to one party who takes the whole territory; it is supposed for European account, and we hear that it will be fenced and stocked soon.

The few lots of new wool in the North Market are enveloped in mystery; the old system of selling wool in this market is at present in vogue, and nobody knows well the price paid.

Mr Matthew Forrester, who has just returned after a six months trip, was enveloped in friends when he entered the hall. He looks much improved after his trip, and visited the U. States where he happened to be when poor President Garfield was shot.

The sales at the ring were—

For cash 70,000 25.55-50
For Oct. 31st 441,000 25.55
For Nov. 30th 40,000 25.55
For Dec. 31st 90,000 25.55
Sales, 641,000.

Cedulas—

For cash A 14,000 99$\frac{1}{4}$-$\frac{1}{2}$-99-$\frac{3}{4}$
For Oct. 31st A 60,000 99-$\frac{1}{4}$-$\frac{1}{2}$
For Nov. 30th A 5,000 98$\frac{3}{4}$
For Dec. 31st A 20,000 99
Sales, 99,000.

Nat. Bank Shares—

For cash 61 shares [19-]18$\frac{1}{2}$-$\frac{1}{2}$-118
For Oct. 31st 2,750 shares 120-119$\frac{1}{4}$-$\frac{1}{2}$-118$\frac{3}{4}$ to 119
For Nov. 30th 950 shares 121-120-119$\frac{1}{4}$
Sales, 3,761.

At afterhours there was not much done on Change, gold could not be kept at 25.55, as some 15,000 pats in small lots were sold at 25.50, market closed buyers at that rate. For October 31st a few round lots bought for account of the houses at 25.55, National Bank Shares continue weak, not much done, and holders anxious to get rid of their stock find it difficult enough at 119, for end of month market closed at 118$\frac{3}{4}$. Cedulas which ruled weak in the morning seemed firmer at afterhours and were sold cash at 99$\frac{1}{2}$, but the general appearance of the market for all description of stocks is downwards, and but for the bank and the Government gold would jump.

We hold for to-morrow a good letter on the close of the Exhibition taking exception to our views.

On the 12th M. Fraguiero sells at the ring by order of Court two Catalina wharf and mole shares par, value 1000 fuertes.

Mr Zumaran left on Saturday for Montevideo, he was accompanied on board by the Foreign Affairs Minister and PortCaptain, and it is said on Change that he was here on a special diplomatic mission.

There was much comment on Change about the last news from Chile; the appointment of many Chilian Ministers to European Powers. People naturally ask the meaning of all this. It is said that private telegrams state that last week Chilian Government asked Argentine Government for further extension of time to approve treaty.

A very important change in the Nat. Cabinet is talked of as likely to occur soon.

Three or four new lots of new wool in the Plaza Once to day, sold viz—

400	ar.	new wool, Balleto, 90
1000		do Duggan, 95
70		do Plomer, 110
1500		old 68$\frac{1}{2}$

One lot to Robbio not sold.

The sale on contract of one of the best known wools in Lujan is reported, price reserved but said to be 85.

Wool buyers say that the European wool markets must advance 20 per cent to cover prices paid here, latest telegrams give good Buenos Aires 5 to 5.25, which is far below our rates here.

In the South Market no new wool.

Captain Gillies, commander of Neva, was welcomed on Change, and congratulated on the large amount of gold and distinguished passengers he brought out.

The Bank we heard discounted pretty liberally to-day between 5 and 6 millions, as for raising the rate of interest as mooted this morning on Change, we believe there is nothing in it.

Exchange £10,000 at 49$\frac{1}{4}$, not much doing as yet.

We believe Mr Smithers will open a provisional office for his new bank; he was visited to-day at his hotel by a large number of friends who welcomed him back to the Plate.

There was not a spark of news afloat to-day about Dr Jorge and his 20 million loan, but we hear that before he left Buenos Aires the Government received an offer from London telegraphed at 91$\frac{1}{2}$, he will find it hard to do better.

Mr Cibils, who has just arrived from Cuyaba, was enveloped in friends when he entered the Bolsa.

Latorre will be in town to-morrow.

General Villegas leaves in a few days for Nahuel Huapi.

The bar gold brought out in Neva for the Mint was bought in Holland by the agent of the Government.

The cable and land line worked better to-day, and London messages yesterday's date received to day.

Mr L Budd who has arrived from Gualeguay was welcomed on Change, he reports Pingo aground at 3 Bocas, the Estrella failed to get her off, but brought down her passengers.

The Leibnitz sails to-morrow; passengers will leave Central Station at 3 o'clock for Boca where the Stella will take them to Outer Roads; amongst the passengers leaving by her are—

We call attention to Mr Gowland's important estancia auction in Rojas, a favourite partido, and where land is much looked after by the sheepfarmers. The auction comes off on 19th.

The advices from England by the mail are so unfavorable that they in a measure explain the recent further advance of the Bank of England rate and the increased drain of gold to pay the U. States for goods exports. The following extract from a Manchester paper is most distressing:—

"The harvest in England.—Birmingham.—All night and morning rain has continued to fall incessantly throughout the midland counties. Some hundreds of acres of land are under water, and the spark of hope which kindled in the breast of the farmers last week has died out. The crops are completely spoiled, and the agricultural outlook is about as dreary as it well could be."

The Hamburg str. Rio sails to-morrow the 11th, also the Leibnitz.

It was announced on Change that the Argentine Minister to Peru, Sr Uriburu, who has recently arrived from the West Coast, will leave to-morrow overland for Peru, being despatched by the Argentine Government on special mission to Peru to confer with Mr Haribart, the American Minister in Lima, on the intervention proposed by the Washington Government to settle and arrange terms between Chile and Peru. This is a new turn this Chilian question has taken, and increases the complication

The *Revista Mercantil*, in its fortnightly review of the market, states that the past fortnight has been like the previous ones, very quiet. Importers would do well to be prudent in their orders for merchandise, as the stock on hand is still very large and daily accumulating while the demand continues to be but small. A greater stir may be expected next month, when produce commences to arrive in large quantities. The money market has been very calm and little fluctuations observable in gold. The feverish excitement which drove the National Bank Shares to such a high premium is now rapidly subsiding, and henceforward this stock will not occupy exclusively the attention of speculators. The project of the Finance Minister to raise a loan at 5 o/o with accumulative amortization of 1 o/o for the conversion of the public debt will most probably not be discussed in this session, but be postponed for next year, or in other words for an indefinite period. It must be added that this project met with no sympathy from the general public or in commercial circles. Advices from London are unfavorable, and it is much feared that the Bank of England will raise its rate of interest to 5 o/o, which of course would cause a proportional rise here. Both the Provincial and National Bank continue to discount pretty liberally and endeavour to help the market. The want of paper money is felt, and the rates of discount average from 8 to 8$\frac{1}{2}$ o/o. Very little exchange done. The export business has been almost confined to sheepskins about which better advices have been received from Europe. One small lot of new wool sold in the South Plaza [much to the astonishment of most buyers] at the high figure of 108 m/c. Important contracts have been made for the new clip at prices varying from 68 to 85 for good classes, inferior from 58 to 63. Cow hides fetch from 160 to 164 the pesada. The 14,896 packages of wire for fencing per Pascal, Plato and Leibnitz were immediately sold on arrival at following prices

1st quality, patent, $75-80 per quintal.

We have received the following for publication in this column:—

Bahia Blanca, Oct. 3rd, 1881.

Our Comandante has successfully laid the 'Dead Man' to hold the lightship to be placed there; she is now being prepared, painted red, and fixtures regulated for three lights. The placing the buoy held by three anchors was a little troublesome, but Howard is the type of a regular John Bull and got through it with infinite ease to himself and no trouble to us [the other commissioners] all he has to do now is to moor the vessel to the buoy; with this accomplished, and a few buoys placed to mark the channel, the navigation of the port of Bahia Blanca is made easy. With some considerable work in the way of wharves or landing places not yet defined and proper communication to the town, foreign vessels may enter and discharge their cargoes here. An American ship could come here now just as well and with greater safety than to B. Aires. Fencing wire, iron, and indeed all foreign goods might be shipped direct here Some one is bound to make a fortune by shipping direct here. If you come down in the next Villarino you will have two or three days here to take a run on shore. The place is such a wilderness and so extensive you may be at first a little confused, but one such as you who has travelled in advance of railways in most countries of Europe will more or less comprehend when you land how things stand here. When you come bring letters of introduction to our Comandante; his patronage, as like in all military districts, will facilitate your movements. I hear there are other projects for railways from here to Nueva Roma and Puan before Congress. Our line takes up a wide range and would make this a great shipping port from the Salinas Grandes as well as opening up the magnificent camps of Namuncura, Catriel and Pincen, which abound in 'algaroba' and other valuable woods. It is also the direct shipping port for San Luis, Mendoza, and Chile, indeed when I was on the Alsina frontier with Colonel Donovan we travelled many leagues along one old road used for traffic [in days gone by] by the Chilians passing the arroyo [river] Sauce Chico at place anciently and then called Paso de los Chilenos; it is now styled Fort Argentino, magnificent camps and our projected line passes through it. Try and send me by post a real live London *Times*, advertisement sheet and all; we have many discussions here as to its size and extent. I find the Argentine young fellows first rate chaps, but they want some Yankee go-ahead, and to gain which if is necessary to travel.

SAN BLAS.

BUENOS AIRES AND CAMPANA RAILWAY.

The attention of the manager of this line, Mr T C Clarke, is called to a great abuse committed with the passengers travelling on this railway.

As the fees for travelling on this line are so tremendously high, the company, in order to induce pleasure seeking travellers not to get too much frightened, has put the fee for return tickets to San Martin on Sundays and holidays only, and valid for the 'same' day, at five dollars less than the usual price for return tickets valid for two days, but this important reduction for pleasure travellers is only for the benefit of those who take the train at the Central Station, and people who have the misfortune to live at the Northern part of town and consequently prefer, very reasonably, to take the train at the Retiro Station, are obliged to pay five dollars extra, although this last named station is nearer to San Martin, and also situated within the boundaries of the city, as the return tickets also very properly state "de San Martin a Buenos Aires" and not "a Retiro" or "Central".

Now in the name of justice and good sense Mr Clarke is requested to stop this abuse, and as the new time-tables will shortly be altered for the summer months, this would just be the right time to introduce this reasonable reform, and to oblige a large number of

Y han sido recientemente practicadas espresamente para vender, por cuya razon son tan bajas, llamando en consecuencia la atencion de los especuladores pichincheros, y demas que andan a la pesca de las oportunidades para efectuar compras de ocasion.

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya decidido se haga en la quinta de Diehl. La Escuela de Artes y Oficios en la calle de Brasil y Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.

No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, pos-en gas, tramways, aguas corrientes, empedrados, etc.

STATE OF IRELAND.

Dublin. Sept. 7.

The Marquis of Waterford has addressed the following judicious and kindly circular to the tenants on his estate :—

"My friends,—On the 7th day of June, 1881, I addressed a few lines to you, saying that when the Land Bill was settled one way or the other, and we should see our future positions clearly, I would consider, with a view of giving a permanent reduction, the cases of those tenants whose rents are higher, with regard to the valuation, than the general average of the estate round Curraghmore, except in instances where rents have been recently settled, or new lettings which have since been reduced. I have thought it wiser and more for the best interests of us all not again directly to address you until after the passing of the Land Bill. I am pleased to know, that although very few of you paid your rents before the time I named, yet by far the greater number of you made a settlement within a short period after the date fixed, and nearly all the residue have told Captain Gandy a not distant date when they will be prepared to meet their liabilities. Therefore, I shall not allow the fact that the rents were not paid exactly at the time specified, nor the fact that there are a few cases still where the tenants have been badly advised and refused to pay, to stand in the way of carrying out my former project, and I am glad that your own action, to which I have referred, enables me to give effect to the wish which I have always entertained of treating you with the greatest consideration. The tenants, therefore, who pay a higher rent with regard to the valuation upon the Baronies of Upper Third and Middle Third than the average of my estate round Curraghmore, and who are not at the present time refusing to pay their rents, will, without delay, receive information from Captain Gandy of what permanent reduction will be allowed in the cases before referred to, each taken separately and considered upon its own merits; and any tenant receiving such reduction will obtain a statutory tenure in his holding. I shall also give the two tenants who (much against my will) forced me to evict them all the same advantages which would have accrued to them if they had been evicted after instead of before the passage of the Land Act. Before ending these remarks I should like to add a few words on the Land Act Some Land Bill was in my opinion (having regard to the facts of the case) absolutely necessary. We had no other Bill offered to us, and therefore ever since the Government Bill was introduced I have felt that the interests of both landlords and tenants required that it should become law. I used any little influence I may have possessed to bring about that object, and was most anxious that all classes of tenants should equally profit by its advantages, and that no amendments should be carried which would exclude from them other leaseholders or tenants holding farms rented over £100. There is much in the measure open to doubt and question, and some things of which I do not approve, and I think a simple Bill would have been better for all classes in Ireland. A Bill giving the three 'F.'s' in their entirety and giving compensation to the landlords by means of purchase would have caused more general satisfaction, would have given less cause for litigation, and would have tended to a speedier establishment of a peasant proprietary. The Bill, however, is now law, and the wisest course for all parties to pursue is to make the best of it. In order to assist you to thoroughly understand your position under the new Act, I send you, reprinted from the *Freeman's Journal*, the official summary of its provisions. I sincerely hope it may do all the good the Government anticipate, and in any case I trust that the feelings of good fellowship and affection which used very generally to exist between owners and occupiers of land in Ireland will be re-established. For my own part, I intend upon my properties to carry out, not only the letter, but the spirit of the act, and I sincerely trust that from this time may date a renewal of those cordial relations which have existed between your families and mine for so many generations.—" Waterford.

"To the tenants upon the Curraghmare estate in the baronies of upper-third and middle-third."

There is reason to believe that this letter expresses the feeling of the majority of Irish landed proprietors, especially those having large estates and whose relations with their tenantry have been found ed upon personal knowledge and friendly consideration. The example of generosity set by Lord Waterford will be likely to exert a beneficial influence upon his own class, with whom he possesses the respect due to his ability and suavity, and it is hoped will be appreciated by the tenants, with whom he has ever been popular.

A curious scene was witnessed yesterday at Kilcommon, county Limerick. Mr Vere Hunt, a resident landlord, who is boycotted, asked the help of his friends to save his crops, and a number of gentlemen assembled and did the work very efficiently. The people were surprised at seeing such a body of harvestmen, but offered no obstruction to them.

On Sunday night Mr Spunner, of the Emergency Committee, when coming out of his lodgings, near New Pallas, observed a man, not far off, armed with a rifle. He concealed himself behind a hedge and fired three shots at Mr Spunner as he passed on the public road. None of the shots, happily, took effect. The police are aware of the circumstances, and are making inquiries.

Intense irritation continues to prevail in Limerick, and the populace throng the streets discussing the circumstances of the riot. On Sunday night the wounded men in Barrington Hospital were still living, but O'Keeffe, the railway porter, is in such a hopeless state that Mr M'Carthy, R.M., took his dying depositions to-day. He was not able to identify any of the constables who were brought before him but some of the constables who were engaged in the affray could not be brought to him, being themselves severely hurt. The night patrols of military and police are continued as a precautionary measure. The populace are very bitter in their resentment against the police, and theaten to be revenged. The Rev. Mr Wedgewood, Methodist Minister, gives the following account of the attack upon his congregation and church :—" About 20 soldiers were present at the service I was conducting in the Methodist Church George-street. During the delivery of the sermon we heard a considerable number of shots fired and great screaming and shouting in the streets. Some of the congregation became excited, but I requested them to sit still, which they did till the close of the service, at 7.40. While many of the congregation were leaving the church I called back the military and requested them to stay to the prayer-meeting, hoping that by the time it would be over the excitement would have subsided. At 8.20 the prayer-meeting closed, and the people—about 60 civilians and 20 soldiers—left the church. I was the last to retire, and on reaching the porch met a large number of people running back amid a shower of stones. As soon as all were inside the church I got the doors closed, but the stone-throwing continued, and great damage was done to the windows. The lights were nearly all put out, and we all went to the lower end of the church. I then learned that on going out two colour-sergeants of the 9th and a corporal of the Scots Greys were knocked down. The latter was kicked, and he and another lost their caps. Having learned that we were at the back of the church, some of the mob came and smashed one of the windows there. There were about 50 of us, including the soldiers. Thus hemmed in I managed to send three messages to the police barracks, but could get no help from either. Eventually, when comparative quiet was restored in the back streets, I got the civilians quietly out by the back way. I then went up to the soldiers' barracks, but met one of the officers on his way to see after the relief of the soldiers. He speedily returned and brought a large armed escort, which took charge of the imprisoned men at about 10 o'clock. Not a single soldier took refuge in my church; only those who were driven back to it and who had been worshipping with us during the whole service. With the origin or continuance of the riot these men could not possibly have had anything to do. They knew nothing of it whatsoever till I told them and requested them to stay to the prayer-meeting. The attack made on the building and the people was nothing less than diabolical. A large number of stones have been picked up this morning from the centre of the church and from about the windows. How any one escaped injury in the rush back from the gates to the porch is a marvel. He complains that for nearly two hours they could get no help from the police. He states that, so far as he could learn, the riot had its origin in Sunday excursions and the opening of the publichouses, where crowds of country people gather and get drunk. Roscrea, which until recently was a peaceable district, has become one of the most disturbed in the country. The presence of a number of Property Defence labourers brought down to save the crops of a Mr Bergin, a Boycotted landlord, has aroused a very bad feeling among the inhabitants. The hostility of the people is directed against the military. A small party of the 64th Regiment, a company of which is stationed in Roscrea, went out to see the labourers at work, and were about to return, when they were met by some half-drunken roughs, who made some insulting observations and ended by crying out, 'up with the green and down with the red,' and threatened violence to the redcoats. The soldiers took little notice of the insults until one of them received a blow, when they retaliated, and a fight immediately ensued. The assailants of the soldiers increased to quite a mob, and the soldiers would have been badly handled if a party of police had not promptly arrived and dispersed the crowd. The soldiers used their belts freely, and some severe blows were exchanged. Two of the roughs were identified and committed to gaol by the magistrates for two months.

Notices were posted on the Roman Catholic Chapel of Roscrea on Sunday, warning the people not to enter the chapel as long as the constabulary and military stationed in Roscrea attended there. A large crowd assembled outside, and many persons went away without entering the chapel. The terrorism exercised by the practice of boycotting is illustrated by the following apology, which is printed and posted in Baltinglass, county Wicklow—'Baltinglass Land League. An apology. I, Anthony Dwyer of Ballinacraw, am exceedingly sorry for having earned boycotting. I have suffered considerably by it, and ask to be forgiven, and will be good in future. I have asked Mr O'Toole to publish this placard—Anthony Dwyer, Ballinacraw. The *Daily Express* states that copies of the placard were sent by post to many residents. The offence for which Dwyer, who is a farmer, has made the apology is his having sent a moving machine to cut some meadows of Mr Ranson, who is boycotted. The loyal inhabitants complain that measures are not taken to protect them.

MALTINE.

(Extract of Malted Barley, Wheat and Oats.)

The Original and only Reparative Composed of these three Cereals

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 6th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

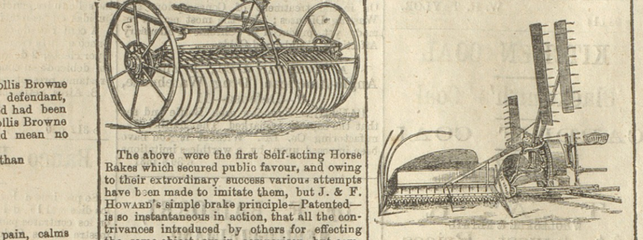
Howard's New Patent Simplex Mower.

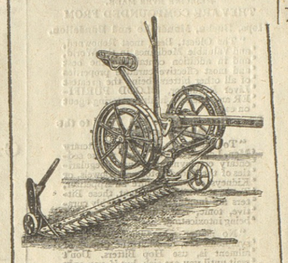


J. & F. Howard's Simplex Mower is one of the lightest machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usage. J. & F. Howard's patented principle of *open gearing* is adopted. This gearing, among other advantages, is light in weight, of great strength, and not liable, as other gearing, to get clogged with the cut grass, there being no cogs to catch it, and no shield therefore is required.

Prices in England.

With two Knives, Spring Seat, and Tool Box, containing all requisites for use in the field, weight 6 cwt. £18 0 0

Howard's New Patent Simplex Reaper.



J. & F. Howard's Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

Prices in England.

With two Knives, Seat and Tool Box, containing all requisites for use in the field, weight 10½ cwt £29

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c., at half the usual cost, and in much less time. The hens had better be 'cautious about striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*
